UNIQUE OPPORTUNITY JUST OUTSIDE MIJAS PUEBLO! This breathtaking group of properties don't come onto the market too often. If you are looking to have a place where all of your loved ones can come together or you are looking for an investment to host your guests in a special environment, this just might suit you. There are three properties on this more than 2000 square meter plot. The main house, with 4 bedrooms, is located right at the center. It is laid out over two levels and has a roof-top terrace with 360 views. Entering the lower level, we find 4 bedrooms, all with their en-suite bathrooms. The owner has fully renovated this Andalusian style villa to the highest standards but keeping beautiful features, such as the arched ceilings. Once we come up to the second floor, we are welcomed by the large and bright living space. The kitchen flows into the large living-room and everywhere we look there are large windows and door letting in all the natural light. On this upper level we also have a massive terrace with barbecue and the stairs that take us to the rooftop solarium with stunning 360 views all the way from the top of the Mijas mountains down to the Mediterranean Sea! On the Northern side of the land we find the two bedroom guesthouse with it's own entrance from the street. Entering the property on the upper level, we have a good size kitchen with the living-room. The two bedrooms with their en-suite bathrooms can be found down-stairs. Both levels have their large outdoor terrace spaces for all to enjoy the sun all day! The third property is found on the Southern side of the property, underneath the pool area. This building consists of a lovely studio apartment on the upper level and a storage room on the lower level. The pool area and the lawns gives us the best views and plenty of space for all the people who are lucky enough to be able to enjoy this breathtaking place. A large barbecue area is the cherry on the cake to really complete what the Costa del Sol lifestyle is really about. This property would perfectly suit large families looking to have a second home here in Southern Spain or even to make it their primary place to live. At the same time, if you are an investor, looking to do a BnB or a yoga retreat, this could work for you just as well. The property is only a few hundred meters from the southwest edge of Mijas Pueblo, which makes it perfect to those who want the tranquility of the countryside but would like to be walking distance to the vibrant village life of this wonderful Andalusian white village. For more information or to come and see it in person, please contact us!
